

# WEATHERPROOF/WATERPROOF PAPER

for your high speed copiers & ink-jet printers

	PRINTER/COPIER TYPE	APPLICATION
	<b>COPIER/LASER PRINTER</b> <i>Rite in the Rain</i> is designed to run in your photocopier or laser printer. It is a wood-based paper product that will not melt in any machine. Not for ink-jet printers.	<b>Rite in the Rain</b> is designed for all-weather situations. No matter how heavy the rain, <i>Rite in the Rain</i> protects and insures your data. Completely recyclable.
	<b>COPIER/LASER PRINTER</b> <i>DuraCopy</i> is a synthetic stock designed to withstand the high fuser temperatures in your photocopier or laser printer. Not for ink-jet printers.	<b>DuraCopy</b> is a synthetic tear-resistant stock designed for extreme situations. Use for underwater forms or data sheets that are continually in an extremely wet environment.
	<b>INK-JET</b> <i>Weatherjet</i> is a synthetic stock designed to be used in your ink-jet printer. The micro-porous surface absorbs the ink making a waterproof print!	<b>Weatherjet</b> is a synthetic paper designed for extreme situations. <i>Weatherjet</i> ink-jet paper insures your data in the wettest environments! Great for ink-jet printers.

ALL STOCKS AVAILABLE IN A4 (21CM X 29.7CM) & A3 (29.7CM X 42CM) 500 SHEET REAMS!

## Will they work in your machines?

*Rite in the Rain* and *DuraCopy* can be printed and processed much the same as standard paper. Papers have run in DocuTech® copiers with great success. These water resistant and waterproof stocks expand your paper options and offer great benefits to your customers looking for tough weather resistant and waterproof paper!

## What can they be used for?

*Field Manuals*  
*Battle Books*  
*Event Programs*  
*Reference Material*  
*Maps*  
*Unit SOPS*  
*Graphics*  
*Anything going outside...*
